

Tri-Immune Boost

Immunity Boost!

🍊 Ascorbic Acid (200mg/ml)

- Popularly known as Vitamin C, this potent antioxidant supports the immune system by enhancing the function of various immune cells. It also helps protect these cells from harmful free radicals, promoting overall health.

🌟 Glutathione (200mg/ml)

- Often referred to as the "master antioxidant," glutathione plays a crucial role in defending the body against oxidative stress. Its presence strengthens immune responses and ensures our cells remain healthy and functional.

🛡️ Zinc Sulfate (2.5mg/ml)

- An essential mineral, zinc is vital for immune cell development and function. Regular intake can help reduce the duration of illnesses and fortify the body's natural defenses.

Together, these ingredients provide a powerful blend to supercharge your immune system, especially during challenging times. Stay strong, stay healthy!
